Faculty of Computer Science and Information Technology

Subject: Web application development

Deadline:

Total Marks: 10

Instructions:

- Copying of the assignment will result in failure.

Question #	CLO #	Domain and BT Level	Total Marks
1	1	C3	10

Scenario: You work for a small web development agency, and your client has requested a simple but elegant website for their upcoming restaurant, "Gourmet Delights." The client has provided you with a design concept and specific requirements for the website. Your task is to create the HTML and CSS code for the homepage of the restaurant's website.

Question: Using HTML and CSS, create the homepage for "Gourmet Delights" restaurant based on the following requirements:

1. Header Section:

- Include the restaurant's logo.
- Create a navigation menu with links to "Home," "Menu," "About Us," "Contact." And "Registration form/ signup form"

2. Banner Section:

- Add a visually appealing banner image that represents the restaurant.
- Overlay the banner with a semi-transparent background and centered text saying, "Welcome to Gourmet Delights."

3. About us Section:

- Create a section that provides a brief introduction to the restaurant.
- Include a high-quality image of the restaurant's interior or a dish.
- Add a "Read More" button that will link to the full "About Us" page (no

- need to create the full page).

4. Menu Section:

- Display a sample menu with at least three menu items.
- Each menu item should include a title, description, and price.
- Use CSS to style the menu items, making them visually appealing.

5. Contact Section:

- Provide a contact form with fields for name, email, subject, and message.
- Include a "Submit" button.
- Add contact information below the form, including the restaurant's address, phone number, and email.

6. Registration form/Signup form:

- Create a section/page that provides basic information of the user for registration.
- Include Username, Email, Password, CNIC, Phone Number, Gender (Radio button) Address (Text Area), image, etc
- Add a "Signup" button that will link to the full "Signup" page

7. Footer Section:

- Create a footer that includes copyright information and links to the restaurant's social media profiles (Facebook, Instagram, and Twitter).

“GOOD LUCK”
