SKILLS

Data Annotation (Data labelling, Object detection)	(TensorFlow, Pandas, NumPy, MatPlotLib)
Excel (VLookup, Pivot Tables)	Tableau
Label Studio	SQL (MySQL)

PROJECTS

LAYOFFS DATA CLEANING- View Project - KHI, PK   September, 2024
- Used SQL for data transformation and handling missing values.
- Cleaned and standardized corporate layoffs dataset by removing duplicates, standardizing text, and formatting dates.
- Improved dataset quality through type conversion and null value handling.

BIKE SALES DATA ANALYSIS- View Project **-** KHI, PK
September, 2024
- Cleaned and analyzed bike sales dataset using Excel, removing duplicates, standardizing data, and handling null values**.**
- Created pivot tables and an interactive dashboard to visualize trends and key metrics.
- Enhanced data quality with formatting, text standardization, and insightful visual summaries.

CUSTOMER CALL LIST DATA ANALYSIS- View Project **-** KHI, PK
September, 2024
- Cleaned and analyzed customer call list dataset using Python's Pandas, addressing inconsistencies and missing values.
- Standardized data formatting and prepared it for analysis.
- Created visualizations to highlight call patterns and customer interactions.

DATA PROFESSION TRENDS ANALYSIS- View Project **-** KHI, PK
September, 2024
- Analyzed professional trends using Power BI, applying DAX functions for data cleaning and duplicate removal.
- Developed a dynamic dashboard to visualize profession distribution, salary ranges, and industry demand.
- Created insightful visualizations, including charts and graphs, to highlight trends in the data profession landscape.

WORK EXPERIENCE

DATA ANNOTATOR- CNTXT- Dubai, UAE   May 2024- May 2025
- Annotated and categorized large datasets to boost machine learning model accuracy and ensure high-quality results.
- Collaborated with cross-functional teams to optimize annotation processes, efficiency and data integration for AI models.
- Mastered data annotation tools and techniques, enhancing problem-solving skills and supporting successful AI projects.

CHAT SPECIALIST- IBEX- KHI, PK   May 2023- October 2023
- Handled up to 3 chats simultaneously as a Chat Specialist, improving multitasking and response efficiency.
- Deepened understanding of client engagement and effective communication through direct customer interactions.
- Enhanced problem-solving skills by addressing diverse customer issues and inquiries.

EDUCATION

BACHELORS IN COMPUTER SCIENCE- IoBM- KHI, PK   May 2026
Current CGPA: 3.39/4.0

COURSES: Artificial Intelligence, Compiler Construction, Computer Networks, Multivariable Calculus, Data Structures & Algorithms, Linear Algebra
